Top Tips:

Brush your teeth last thing at night and at least one other time during the day with a fluoride toothpaste.

Spit out after brushing and do not rinse. Leaving the fluoride on your teeth makes them stronger.

After eating, wait for one hour before brushing your teeth.

Use dental floss or interdental brushes to clean between your teeth once a day

Change your toothbrush every 3 months

Cut down how much and how often you have sugary foods and drinks, especially between meals.
